Judith Glynn to write **is** to live
Judith Glynn to write is to live
Jana Ángeles

Judith Glynn's writing life began decades ago with numerous articles in national newspapers ranging from a travel-shopping column to pieces about Spain, a favorite destination. But when

enthusiasm faded for new places, Glynn retired her notebook to form a Web-based business, only to learn life is incomplete without writing. A chance encounter with a charming seatmate that continued in Spain set the stage for Glynn's first novel, written from a seasoned woman's perspective. Her second book is a memoir about her involvement with a New York City homeless woman. Glynn has four adult children and is a beaming grandmother of six. She has homes in New York City and Rhode Island where she writes and loves life.

• ***A Collector of Affections***

Years after Leah Lynch's divorce, she's tired of dead-end affairs and yearns for a lifelong mate. Although sassy, independent and living in New York City, she fears attending her daughter's wedding as an unattached woman. To soul search a new lifestyle with a committed man, she books a flight to Madrid and meets Miguel Santiago, the intriguing man seated next to her. They begin a carefree affair in Spain, but life gets complicated for the middle-age couple when they continue their romance back in the States, as they struggle to let go or move on together. Glynn's natural travel writer's talent creates vivid descriptions as a backdrop for this sensuous novel that speaks to a woman's soul. Available in Spanish: *Coleccionista de Amor*. Relatos desde el corazón de una mujer.

The Street or Me: A New York Story (Memoir)

• Can an ordinary person step up and rescue a street person? And why bother? Judith Glynn's raw, riveting and inspirational memoir challenges perceptions as it begins with her sidewalk

hello to Michelle Browning in their New York City neighborhood. Browning is 33, a former Italian beauty queen, habitually drunk, homeless for six years and near death. Glynn is middle-aged, divorced with grown children and struggles to support herself in her adopted city. As their deep and odd friendship grows over several years, Glynn single-handedly sets out to return Browning's dignity and to return Browning to her family in Italy. At stake throughout is Glynn's safety and Browning's alcoholism. Will it enslave her to street life or will she follow Glynn's lead?
